2020**

Date: \_\_\_\_/\_\_\_\_/\_\_\_\_ Name of Customer: \_\_\_\_\_

Service Address: Street: \_\_\_\_\_

City, State, Zip: \_\_\_\_\_

Telephone Nos: \_\_\_\_\_

Email Address: \_\_\_\_\_

Billing Address: Street: \_\_\_\_\_

City, State, Zip: \_\_\_\_\_

Transfer Fee: **\$50.00 (non-refundable)**

The Utility agrees to sell and deliver water to the Customer and the Customer agrees to purchase and receive water from the Utility in accordance with the rules and regulations of the Utility as included in its approved Tariff on file with the Utility and the Texas Commission on Environmental Quality.

All water will be measured by meters, which are furnished, installed, owned and maintained by the Utility. The meter and/or connection are for the sole use of the Customer to serve water to one dwelling, business, or property. The Customer shall not share, resell, or sub-meter water to any other dwelling, business, property, etc., without the specific written authorization of the Utility and in compliance with applicable rules and regulations.

The Utility has the right to locate a water service meter and the pipes necessary to connect the meter on the property of the Customer. The Customer will allow the Utility access at all reasonable times to its property and equipment located upon the Customer's premises for the limited purposes of reading the water meter, repairing or replacing existing facilities and to check for illegal connections or unsafe plumbing practices existing or cross-connections, in compliance with the requirements of the Texas Commission on Environmental Quality "Rules and Regulations for Public Water Systems." Also the use of pipes and pipe fittings that contain more than 8.0% Lead or solders and flux that contain more than 0.2% Lead is prohibited for any plumbing installation or repair of any residential or non-residential facility providing water for human consumption and connected to the water supply.

## Application for Water Service - Page 2

The customer will install, at his/her own expense, a service line from the water meter to the point of use that includes a cut-off valve on the Customer's side of the water meter. The Customer will be responsible for maintenance and repair of the service line and cut-off valve. The Customer shall hold the Utility harmless from any and all claims for demands for damage to real or personal property occurring from the point the Customer ties onto the water meter to the final destination of the line installed by the Customer.

The Customer agrees to grant to the Utility an easement "right-of-way" for the purpose of installing, maintaining and operating such pipe lines, meters, valves and any other equipment which may be deemed necessary for the provision of Utility service to that Customer. The Utility will attempt to restore the Customer's property to its original condition after installation or repairs. This easement may be in such form as is required by the Utility. The Customer agrees not to interfere with the Utility's employees in the discharge of their duties.

The Customer will not permit anyone except the Utility's employees to tamper with or interfere with any of the equipment installed on the Customer's premises.
